

FleetSafer®

Promoting the safe, legal and responsible use of mobile devices while employees are driving on the job

24% OF ALL CRASHES INVOLVE CELL PHONE USE.

THESE ARE PREVENTABLE ACCIDENTS.

THE COSTS TO EMPLOYERS CAN BE SIGNIFICANT.

AVERAGE ACCIDENT ... **\$25,000.**
 WITH INJURY ... **\$150,000.**
 LIABILITY JUDGEMENTS ... **\$0.5M-25M.**

POLICY IS NOT ENOUGH.

A POLICY WITHOUT SOME MEANS TO MONITOR AND ENFORCE CAN BECOME A LIABILITY.

THE SOLUTION.

FleetSafer® from Aegis Mobility is software for smartphones and tablets that detects driving state and automatically puts the device in safe mode while driving. In safe mode, a curtain screen blocks access to the keyboard and screen and all notifications and alerts are silenced including incoming calls, texts and emails.

FleetSafer is the industry's broadest solution for enterprise customers, with multiple trigger options and the most complete device coverage in industry, providing maximum flexibility depending upon the vehicle, mobile device and safe driving policy environment.

DRIVING DETECTION TRIGGERS.

GPS
Software only

OBD
Real time

TELEMATICS
Leverage existing investment

FleetSafer Features

SIMPLE INSTALL AND UPDATE OVER THE AIR.

AUTOMATIC START/STOP.
Multi-trigger architecture

EMERGENCY CALLS ALWAYS ALLOWED.
Outbound plus inbound callback

APPLICATION WHITELISTING.
Permit use of specific apps, such as Navigation

HANDSFREE DEVICE USE ALLOWABLE.
If permitted by policy

PUTS DEVICE IN SAFE MODE.
Silences alerts/notifications, locks keyboard/screen
Blocks access to text, email, browser, other apps

FleetSafer Benefits

ENSURES COMPLIANCE.
Eliminates the potential for violations and exceptions

SIMPLIFIES REPORTING AND ACCOUNTING.
An unenforced policy will increase liability, not limit it

ELIMINATES ALL DISTRACTIONS.
A silenced phone still vibrates and displays incoming messages and calls

SIMPLIFIES CONFORMANCE FOR EMPLOYEES.
Automatically puts the device in safe mode when driving detected

Administrative and Reporting Portal

All devices, regardless of trigger method or device type, can be centrally controlled and administered through the Aegis Crossroads portal, a cloud-based service that provides a uniform interface for configuration, deployment, analytics, auditing and reporting. The service includes flexibility in policy options that are configurable by the customer and enforced by the software.

COST/BENEFIT.

The average cost for FleetSafer is \$5 per month per device, and well justified by the the estimated \$325 annual average cost per employee for distracted driving accidents without accounting for the costs of injury, time off work and liability.
